Alexandria, VA 22313-1450

Sir:

In reply to the March 12, 2007 Office Action, reconsideration of the rejection is respectfully requested in light of the following remarks.

Claims 1-16 are pending in this application. The Office Action, on page 2, rejects claims 1-16 under 35 U.S.C. §102(e) as being anticipated by U.S. Patent Application Publication No. 2002/0184405 to Omori et al. (hereinafter "Omori"). The Applicant respectfully traverses this rejection.

The Office Action asserts that Omori teaches the features as positively recited in the subject matter of the pending claims. Specifically, the Office Action asserts that Omori teaches (1) a memory that stores processing result logs of the processor, and (2) a receiver that receives the processing result log stored in the memory. These assertions are incorrect for the following reasons.
